## Rabbit Cages

At Premium Rabbit Supplies, all our cages are made of high-quality welded wire that will hold up to years of use. They come complete with drop trays, urine guards, and door guards, all ready for your new bunny.

These cages are shipped partially assembled, complete with J-clips and illustrated instructions for putting them together the rest of the way. All you will need are J-clip pliers, which you can purchase from us as well.

## Rabbit Travel Carriers

Our Supreme Rabbit Carriers are made out of high quality galvanized wire, and are safer and more secure to transport your rabbits in than all plastic carriers. They come with plastic-coated handles for easy carrying, and deep metal drays that keep your vehicle clean. We offer carriers in multiple sizes and with one to three compartments. We even have carriers made to airline specifications if you need to ship rabbits by air.

# Feed & Water Crocks

We offer a wide variety of food and water bowls for your rabbit. These include the popular EZ Crock and Quick Lock crocks, which clip on to the cage wire so rabbits can't tip them. Both of these crocks are dishwasher safe. We also have stoneware and galvanized dishes. We offer small dishes for traveling, and large ones for everyday use.

## Rabbit Feeders

The J-feeder is a tried and true way for rabbit breeders to offer feed to their animals. Since the feeder hopper extends outside of the cage, you don't have to open the cage door to fill it. This way you can feed multiple animals in a short amount of time. We offer the plastic EZ-feeder, as well as traditional galvanized feeders in a wide range of sizes. We also offer

wide-mouth feeders for lop and dwarf breeds with large heads.

# Rabbit Water Bottles

Water bottles are one of the best ways to provide your rabbit with the water it needs. They are much cleaner than dishes, and because they can hold so much water at a time, are better prevention against dehydration and heat stroke. We offer a wide variety of water bottles, from Lixit® Wide Mouth plastic bottles that are easy to clean, to Superpet® Top-Fill bottles that are super easy to refill. We also offer a unique glass water bottle with a cute green “turtle” refill indicator. Our bottles come in many sizes, from 8oz travel bottles, to 16 or 30oz everyday bottles, to gigantic 64oz ones that work great for does with litters.

## Water Bottle Accessories

Keep your water bottles going strong and lasting long with these accessories.

### Water Bottle Chew Guards

Our Lixit® water bottles are built of sturdy plastic – but sometimes even they are no match for bunny teeth. Keep your bottles safe with this galvanized metal chew guard. It hooks on to the outside of the cage, coming between the bottle and the bunny. Your rabbit will be able to access the spout of the water bottle, but not the plastic. We offer chew guards for the Lixit® wide mouth plastic bottles: 8oz, 16oz, and 32oz sizes.

### 2 in 1 Bottle Brush

This double-ended bottle brush is the right tool to keep your rabbit water bottles clean and clear. The brush itself is 14" long, with wide, stiff bristles on one end for cleaning the main part of the bottle. The other end holds a narrow, 2 ½" long brush that works great for cleaning nozzles and other small parts of your water bottle.

### Replacement Bottle Holder Spring

This spring will hold your bottle securely to the cage, yet allow you to remove it quickly for cleaning and refilling. It's handy to keep a number of these springs around the rabbitry for other purposes, such as securing carriers, cage doors, or hay racks.

## Rabbit Nest Boxes

Our nest boxes are carefully designed to help the rabbit kindling process be safe and successful. They are made of high-quality steel that can be cleaned and sanitized much more easily than all-wood nest boxes. However, our steel nest boxes come with removable wooden floors for better insulation. If this floor gets worn out, you can easily replace it without having to purchase a whole new nest box. We offer four different sizes, so that no matter what breed you raise, we'll have the right box for your bunnies.

# Rabbit Drop Trays

Our galvanized drop trays are made of high-quality steel, strong enough for use indoors or outside. Whether you are building your own rabbit cages, or need to replace a worn-out tray in an existing cage, we offer a wide range of sizes to help you find the right fit. Our smallest drop tray is 24"x18" and the largest is 36"x24". If you need a tray for your house rabbit cage, your bunny barn, or your outdoor hutch, we have a drop pan that can take on the job.

## Rabbit Health & Grooming

We offer a wide range of brushes and combs for short and long haired breeds. From the comfort-grip comb with dual-length teeth to a soft bristle brush to a slicker brush, these tools can help your rabbits stay in great condition.

Not only brushes, we also carry essential grooming aids such as Deluxe Nail Trimmers and Antiseptic Styptic Powder that you can use to stop bleeding if toenails accidentally get cut too close to the quick. We also offer a syringe and medicine dropper set that you'll want to have on hand in your rabbit first aid kit.

## Rabbit Accessories

### EZ-Mat

EZ-Mats are plastic mats that lay on a cage floor to give rabbits a place to sit off the wire. But unlike other resting boards, EZ-Mats have slats in them to allow droppings to fall through. The slats are carefully beveled to prevent sharp edges, and the mats hook onto the wire floors with plastic tabs. At last, here's a clean way to keep your rabbit's feet in good shape.

### Rabbit Hay Racks

Hay racks attach to the outside of a cage and provide a great way to give your rabbit access to hay, while still keeping the food and the cage clean. We offer 5" and 9" hay racks, made of quality galvanized steel.

### 20lb Scale for Weighing Rabbits

Whatever your need for a rabbit scale, we've got you covered with this 20-pound dial scale. The dial is 8" across for easy readability, and it has a large basket to securely hold the bunny while you weigh it. The basket is made of galvanized wire and measures 16" w x 10" d x 6" h.

### Carefresh® Bedding

This one of a kind litter product is much safer and absorbs odors and moisture better than wood shavings. This product is 100% natural and biodegradable, free of ink, oils, chemicals, or other contaminants. It's even heat-sanitized before packaging. There won't be any bugs hiding in this bedding!

## Rabbitry Record Card Holders

Now you can mount all your rabbit's vital information right on its cage! These coop card holders are made of galvanized steel. They slide easily on to cage wire and protect the cards from curious bunny teeth. We offer business card, 3" x 5", and 4" x 7" card sizes.

## Comfort Harness & Stretchy Leash

We strongly recommend the Comfort Harness & Stretchy Stroller set. This shirt-like harness distributes pressure over the rabbit's body. The harness comes in two adjustable sizes and is made of lightweight, durable cotton. The Stretchy Stroller leash can detach from the harness.

**All Natural  
Bunny Balm**

Sooner or later, most rabbit breeders and show people will want a tattoo pen for their own. At Premium Rabbit Supplies, we stand behind **the Kbtatts Battery-Operated Rabbit Tattoo Pen**. This product was designed by a rabbit breeder and her father (who has been a tattoo artist for over 20 years), so it combines expertise from both the rabbit world and the tattoo industry. It has an extra-stabilized 5round needle that keeps the ink flowing straight and smooth. The needle can be removed for cleaning or replacement. The complete kit comes with several accessories to make your tattooing experience go smoothly and successfully. The pen, replacement parts, ink, and

## Rabbit Food

We are so excited to offer you one of the country's favorite brands of rabbit pellets: Sherwood Forest Natural Rabbit Food. It has gathered rave reviews from hundreds of rabbit owners who speak of improved health and condition in their rabbits soon after switching to Sherwood Forest brand. This all natural rabbit food is made with **no soy, no corn, and no grain!**

### **“Fortifying Essentials” Concentrated Adult Food**

This pellet is designed to give your rabbits both excellent nutrition and a natural diet through a unique feeding system: half pellets and half timothy hay. Each day, provide your adult rabbits with about ½ ounce of these pellets per pound of body weight, and offer them free-choice hay.

### **“Maintenance & Show” Pet Rabbit Food**

This food is designed for pet or show rabbits that are over 12 weeks of age. On this pellet, your rabbit gets a low-energy, high-fiber diet just as if it was grazing naturally. For that reason, these pellets can be fed free-choice without fear of excess fat building up in your bunny

### **Unique Baby Rabbit Food**

The researchers at Sherwood recognized the different nutritional needs that baby rabbits have, and developed this food to help weanling bunnies transition to solid food in safety. It's high in the fat that lactating does and young bunnies need, but it's not stuffed with starches like other feed brands.

## Rabbit Smarties Activity Book

Written specifically for show breeders, Rabbit Smarties contains 115+ activities with a rabbit theme. Contains word searches, crossword puzzles, picture games, and other puzzles in this book. This makes Rabbit Smarties a popular study aid for 4-H groups and ARBA royalty contestants, because kids learn as they complete the puzzles. However, rabbit enthusiasts of any age may find Rabbit Smarties rewarding way to pass the time.

## Rabbit Fever – Special Edition DVD

**Rabbit Fever** is a full-length documentary about the rabbit show world. The story zeros-in on the national Youth Royalty contests, but also covers other aspects of the rabbit showing hobby. **Rabbit Fever** follows six competitors as they strive to win the top title at the National American Rabbit Breeders Convention – an event that draws more than 20,000 rabbits in one building, the largest mass of rabbits in the world. While adult members of the rabbit habit compete for BEST IN SHOW, the teenage enthusiasts quest for an even more coveted honor in the rabbit community – RABBIT KING and QUEEN!

Produced by Amy Do and filmed at ARBA conventions over several years, **Rabbit Fever** tells the true story of what goes on in the rabbit show world. Buy a copy for your friends and family who wonder what your “rabbit fever” is all about.

## Rabbit Splash Guards

Want to keep a bright and shiny bunny barn? Urine guards can help. These 4" high guards line the bottom of your rabbit cages and keep urine in the drop tray. As an added bonus, they can also help keep babies that wander out of the nestbox inside the cage. We offer urine guards for cages of many different sizes.

*Caution! Make sure you are ordering the right size guards. For example, our 24" x 18" set will not fit all cages that have a width or depth of 18"x24" but only those that have the cage door on the 24" side. For cages that have the door on the 18" side, we offer 18"x24" guards.*

## Rabbit Cage Stands w/Casters

If you'd like to keep your rabbit cages off the floor, you can stack them on top of these durable cage stands. Made of welded steel, they are also powder-coated to prevent rusting. The racks can support multiple cages stacked on top of each other, and are mounted on heavy-duty casters to make it easy to move when you need to clean and organize the rabbitry. We offer stands for cages of many different dimensions, with legs that are 2", 10", and 18" high.

# Precut Wire Floors

Building your own rabbit cages might be easier than you think! Instead of having to purchase a whole roll of 1/2" x 1" wire for your cage floors, you can just buy our pre-cut floors.

A 100ft roll of galvanized wire can make about 6-8 rabbit cages, depending on their dimensions. If you price a roll of wire against the price of 6-8 pre-built rabbit cages, it looks pretty good. It definitely seems like you can save money by buying the wire, clips, and trays separately and assembling them yourself.

But there's a hitch: You need more than one type of wire to build a rabbit cage. Most rabbit cages are built of 1" x 2" mesh wire on the sides and roof of the cage, but that's not tight enough to support rabbits' feet. The floor of the cage must be a much tighter mesh: 1" x 1/2". That means, unfortunately, that to build even one rabbit cage, you need TWO types of wire. Add a second 100ft roll of floor wire to your shopping cart, and suddenly the bottom line doesn't look so good anymore.

## Precut Floors make All the Difference

Don't worry! Here at Premium Rabbit Supplies, you don't have to spend over \$150 on a roll of floor wire. **The solution: pre-cut floors.** Buy your roll of side-wire, and then order the floors you want separately. We'll send you a piece of 1/2"x 1" wire cut to the right dimensions – and instead of \$150, you'll pay under \$10! Now you can have fun designing your own cages and putting them together, while still keeping the costs down.

## Double Function as Replacement Floors

Our pre-cut floors can also replace rusted floors on older cages that you purchased.

**Note:** Other floor sizes may be available in addition to those listed on our website. If you need a size that you don't see here, just ask if we have it!
